4. Additional travelling information

Visa:

Tourists / Visitors may obtain their visas upon arrival at any entry point in Tanzania, but it is **HIGHLY** recommended that one secures the visa before traveling to Tanzania.

Currency:

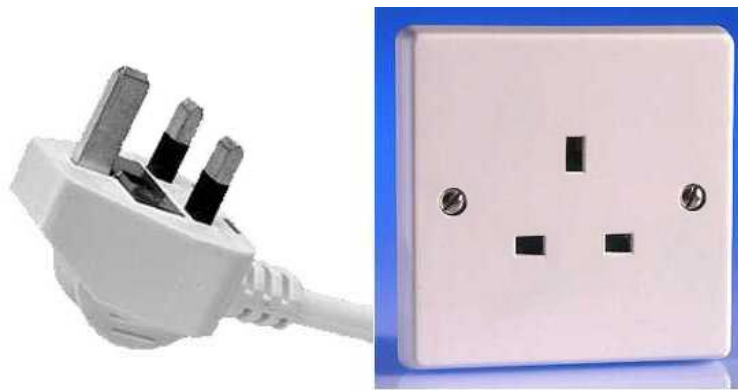

Tanzania's currency is the Tanzanian Shilling. Important to know about money matters in Tanzania is don't bring traveler's cheques with you, as they are not accepted anymore. If you are carrying US dollars with you, then you'll be in luck as Tanzania loves this currency. Dollars are widely accepted, sometimes even preferred over local currency. Euros are accepted but not as much as dollars. Paying with dollars is possible in all quality establishments, from hotels to safari lodges including safari agencies. For local shopping and smaller expenses, it's best to carry shillings. To exchange money in a Forex office, you will have to show your passport. Forex offices have fair exchange rates, but do not exchange money on the street. Having said that, the best and safest option is to have VISA with you, Mastercard is accepted on some ATMs.

**ITGA
ANNUAL
GENERAL
MEETING**
Dares Salaam Tanzania
29th October to 1st November

Electricity:

In Tanzania, the sockets are Type G, like the ones in the photo above, and the default is 220v.

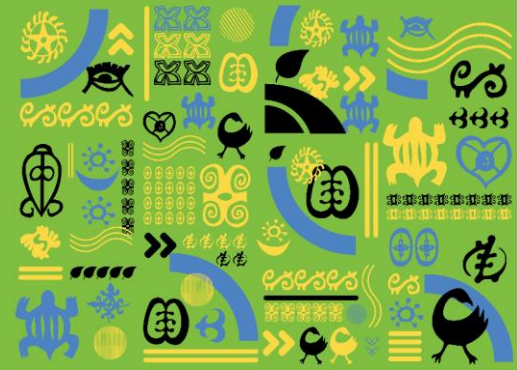

Health:

- Vaccination against Covid-19 is recommended, but not mandatory.
- The presentation of a COVID-19 vaccination certificate or a negative test result is not required, unless required by the airline or the country of final destination.
- Upon arrival, travelers may be asked, on a random basis and at no cost to themselves, to take an antigen test.
